

HEAVY DUTY CB RADIO FOR EVERY DAY USE

> AE 6199 NRC

- ▶ **NRC noise reduction function**
- ▶ **VOX hands-free communication**
- ▶ **12/24 V operation**

Corresponds to the latest road traffic regulations: Communicate only with VOX hands-free system

▶ Art.-Nr.: 12699.02

Albrecht equips the latest version of the AE 6199 with a technical innovation: the NRC noise filter. When activated, the AE 6199 NRC filters background noise and interference noise when receiving radio messages and offers an unprecedented, crystal clear audio quality in CB radio!

In addition, the new VOX hands-free function enables communication in the vehicle without having to pick up the microphone. The radio recognizes when the driver is speaking and automatically starts the radio transmission. Sensitivity and delay of the VOX hands-free function can be set in several steps. Thus the CB radio can be used in vehicles without hesitation according to the latest German road traffic regulations § 23 (1a) StVO.
