

The DR 855 from Albrecht Audio is the newer version of our DR 850 with technically even higher-quality functions. With its unique retro-style design, the Albrecht DR 855 is an absolute eye-catcher and the perfect radio for anyone who values a symbiosis of brilliant sound quality and elegant optics.

When it comes to sound quality, the solid wooden housing plays an important role because it supports the loudspeaker with 4 watts of power in terms of volume and powerful sound.

New technologies are hidden behind the nostalgic design. Thanks to Bluetooth, the favorite music can be played from a smartphone or laptop and the large TFT display shows album covers and station logos in full color.

▶ **Ord.-No.:** 27855

Digital /FM radio/ Bluetooth speaker

> Albrecht DR 855
