

MIDLAND G11 Pro

Radio with 32 PMR446 channels

- Rugged and compact design
- Hands-free VOX function
- 50 CTCSS coding tones/
105 DCS Identification tones

The **MIDLAND G11 Pro** is a professional radio. Its ultra-compact and robust design makes it the ideal companion for any outdoor activity. The high-quality technology is housed in a robust and durable casing, it ensures reliable connections. By means of optional software the device can be programmed specifically for the user. This means that all buttons, channels and functions can easily be customised.

The rugged, compact unit is designed to withstand the toughest working environments. With 32 channels (16 PMR 446 and 16 pre-programmed with CTCSS), the **MIDLAND G11 Pro** is the ideal solution for professional users who need to stay in touch with the whole team.

NEW!

The devices now have even better audio quality, 32 channels and SOS function.
